

# Bilingual Montessori School celebrates opening of playground

Staff Writer | Wicked Local

The Bilingual Montessori School of Sharon recently celebrated a ribbon-cutting of its new playground on August 20.

The ribbon-cutting was held in conjunction with a first anniversary celebration and open house at its French Chateau-style grounds, which also included horse drawn carriage rides, a bounce house, face painting, balloon animals, music, and food for current and prospective students and families. The playground is now available for public use for children in the surrounding community.

Open since the fall of 2015, BMSS provides a learning opportunity for toddlers to elementary-aged students, which helps every child reach his/her own individual potential through a learning atmosphere that promotes peace, harmony and respect, based on the Montessori principles of education. In addition to traditional lessons in math, art and health, students at BMSS are introduced to a practical life curriculum, including the French language and music lessons with instruments like violin, guitar and piano.
